

Testing Services

**Pressure Gauge Calibration
Flow Meter Calibration
Isostatic Pressure Test
Burst Pressure Test
Compression Test
Cyclic Compression & Fatigue Test
Leak Test**

**The most Reliable, Experienced, & Prompt Service
ANYWHERE!**

Advanced Pressure Products

20 Dutch Mill Rd., Ithaca, NY 14850

Analytical Services

At APP Analytical Services, we are committed to helping you obtain the information you need. Because there are multiple techniques and instruments, it is critical at the onset to identify the appropriate method of measurement. At APP, we begin by discussing your application with you. We learn the results you need to obtain, and then recommend a specific test or combination of tests that will provide the most comprehensive results.

While APP provides you with a detailed report, our application engineers are always available to discuss and help interpret your results.

We can analyze your samples and return your results to you (hard copy or on disk, via email, fax, or US Postal service) in as little as 1-2 business days.

Wide Range of Tests Available

Pressure Gauge Calibrations:

- Pneumatic from 0 - 3,000 psi
- Hydraulic from 0 - 60,000 psi

Flow Meter Calibrations:

- Pneumatic from 0 - 500 psi
0 - 2,000 SLPM
- Hydraulic from 0 - 500 psi
0 - 2,000 SLPM

Burst Pressure Test:

- Pneumatic from 0 - 3,000 psi
- Hydraulic from 0 - 60,000 psi

Isostatic Pressure Test

- Pneumatic from 0 - 3,000 psi
- Hydraulic from 0 - 60,000 psi

Compression Test:

- Pneumatic from 0 - 3,000 psi
- Hydraulic from 0 - 60,000 psi

Cyclic Compression & Fatigue Test:

- Pneumatic from 0 - 3,000 psi
- Hydraulic from 0 - 60,000 psi

Leak Test:

- Pneumatic from 0 - 500 psi

Turn Around Time:

Our standard is 1-2 weeks. For guaranteed 5 working days, add 20%. For guaranteed 1-2 working days, add 40%.

Applications:

APP Analytical Services are utilized by a variety of firms and institutions, research laboratories, and those companies engaged in quality control, consulting, and development.

Submitting Samples:

APP Analytical Service Division can accommodate a wide variety of samples, materials, and shapes. Sample size and consistency requirements vary with the test and material being analyzed. For large numbers of samples, special test conditions, or individual assistance, please contact us.

Pressure Gauge Calibration	
One Point	\$70
Two Point	\$100
Multipoint	\$185

Flow Meter Calibration	
Air: One Point	\$70
Air: Two Point	\$100
Air: Multipoint	\$185
Gas Other than Air	add \$25
Water: One Point	\$70
Water: Two Point	\$100
Water: Multipoint	\$185
Liquid Other than Water	add \$25

Burst Pressure Test	
Air	\$100
Gas Other than Air	add \$25
Water	\$130
Liquid Other than Water	add \$40

Isostatic Pressure Test	
Air	\$100
Gas Other than Air	add \$25
Water	\$130
Liquid Other than Water	add \$40

Compression Test	
Air	\$100
Gas Other than Air	add \$25
Water	\$130
Liquid Other than Water	add \$40

Cyclic Compression & Fatigue Test	
Air	\$100
Gas Other than Air	add \$25
Water	\$130
Liquid Other than Water	add \$40

Leak Test	
Air or Other Non-Corrosive Gas & System Under Pressure	\$100
Water or Other Non-Corrosive Liquid & System Under Pressure	\$130

***100% credit is provided for the use of our analytical services toward equipment purchase within 6 months
[up to a maximum of 10% of the equipment cost]***
