- Custom Designed Systems

* Required Field

Not sure which instrument you may need?

Just write in detail what you are trying to test for in the field below and we will send you information and a quotation for the instrument(s) that we feel will best suit your needs.

For more precise instrument quotations, please describe your testing needs/uses as well as any requirements the instrument will need to meet (i.e. what types of samples you plan on testing, their approximate pore sizes, what types of tests you want to conduct, R&D or quality assurance purposes etc.).
